

Vendor FAQs

Will I get paid?

- NPE will continue to operate normally day-to-day, and our cash position is strong.
- We intend to pay vendors in full for all goods and services provided after the date we commenced our chapter 11 case , March 15, 2021, consistent with our past practices.
- U.S. bankruptcy law provides that unpaid debts for goods and services provided to a chapter 11 debtor prior to the chapter 11 filing cannot be paid without court approval. NPE will comply with all legal requirements of the chapter 11 process.

Why should I continue to do business with you?

- Bankruptcy law generally requires debtors to pay in full all obligations incurred after the commencement of a bankruptcy case. NPE intends to comply with such requirements and has the liquidity to make such payments to its vendors.
- This restructuring is about strengthening our balance sheet and operational efficiency, making us a stronger business partner for you going forward.
- Our cash position is strong – with cash on hand, cash to be generated by business operations, and access to bankruptcy financing, we have enough liquidity to pay for the goods and services you provide going forward.
- We value the relationship we have developed with you and your organization and we look forward to continuing that relationship.

Can I take back the goods I delivered before the chapter 11 filing?

- You should consult with your legal counsel about your rights before attempting to remove any goods.

Can I modify the terms of (or terminate) our agreement?

- No. U.S. bankruptcy law prohibits any party from modifying or terminating a contract due to our commencing a chapter 11 proceeding.
- Bankruptcy law prohibits suppliers of a debtor entity from exercising contractual provisions allowing termination of an agreement because of a chapter 11 filing.
- You should consult your own legal counsel on this issue.
